

SCIENTIFIC SYMPOSIUM

BIOLOGICAL DRUGS: NEW ARMAMENTARIUM TO FIGHT AGAINST HARMFUL INFLAMMATIONS

4.11.2008 at 9.00-16.15

Mauno Koivisto-keskus Auditorium, BioCity, Tykistökatu 6, Turku

Symposium on translationaalinen, jonka tarkoituksena on esitellä uusia, juuri markkinoille tulleita tai kliinisissä kokeissa olevia biologisia lääkeaineita ja niiden biologisia perusteita. Ilmoittautuminen: eila.ahokas@duodecim.fi

- Chair: Britta Engelhardt
- 09.00 Opening of the symposium
Sirpa Jalkanen, Turku Finland
- 09.10 Personalized medicine – an important aspect of biological drugs
Jonathan Knowles, Basel, Switzerland
- 09.55 Current concepts in gene therapy
Seppo Ylä-Herttua, Kuopio Finland
- 10.40 Refreshments
- 11.00 Leukocyte trafficking into the brain: a hallmark for inflammation
Britta Engelhardt, Bern Switzerland
- 11.45 New antibody therapies against MS disease and other CNS inflammations
Ludvig Kappos, Basel Switzerland
- 12.30 Lunch
- Chair: Jonathan Knowles
- 13.30 Chemokine receptors as inflammatory targets
Thomas Schall, Mountain View, CA, USA
- 14.15 Coffee
- 14.45 New biologicals in cardiovascular diseases
Christian Weber, Aachen Germany
- 15.30 New biologicals in dermatology
Antonio Costanzo, Rome Italy
- 16.15 Concluding remarks

Erikoiskoulutukseen on anottu 7 tuntia, alat: kaikki erikoisalat
